Fin No. B-2216

Dr. N. A. Wogman, Manager
Radiological and Inorganic Chemistry Section
Battelle Pacific Northwest Laboratories
P. O. Box 999
Richland, WA 99352

Dear Dr. Wogman:

I have reviewed your monthly report for the "Environmental Cleanup Standards" (B-2216) for April 1981, and have the following comments:

1. No further action is required regarding the Workshop Report.
2. The final protocol for "The Procedure for Long-Term Radon Progeny Measurements" which incorporated my previous comments is satisfactory, and requires no further action.
3. In order to assist you in the preparation of the initial "draft report" for this contract (B-2216), which is due by July 31, 1981, I would be most willing to review your outlines or draft write-ups of the various sections discussing Task A - Data Collection and Collation and Task B - Review of Alternative Methodologies.

These considerations were discussed with you on June 2, 1981, but if you have further questions on these matters, please contact me at (301) 427-4541.
