

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUN 23 1981

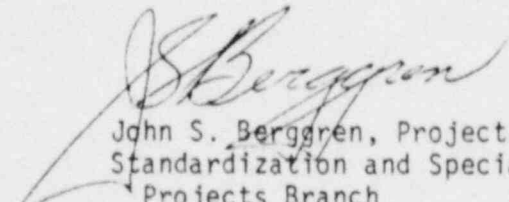

VENDOR: Westinghouse Electric Corporation
SUBJECT: Westinghouse BWR Fuel Product - Meeting Summary

Representatives of Westinghouse Electric Corporation met with NRC staff on June 19, 1981. Westinghouse presented their plans for their BWR fuel product, analytical methods and licensing schedule. Westinghouse will provide shortly, copies of their proprietary and non-proprietary slides appropriately identified. Pending their receipt copies (all identified proprietary) are available for review in the SSPB office.

The presented schedule was considered optimistic but recognized as necessary to meet their potential customers needs. NRC review will of course be influenced by competing resource requirements priorities. A copy of the proposed schedule is attached.

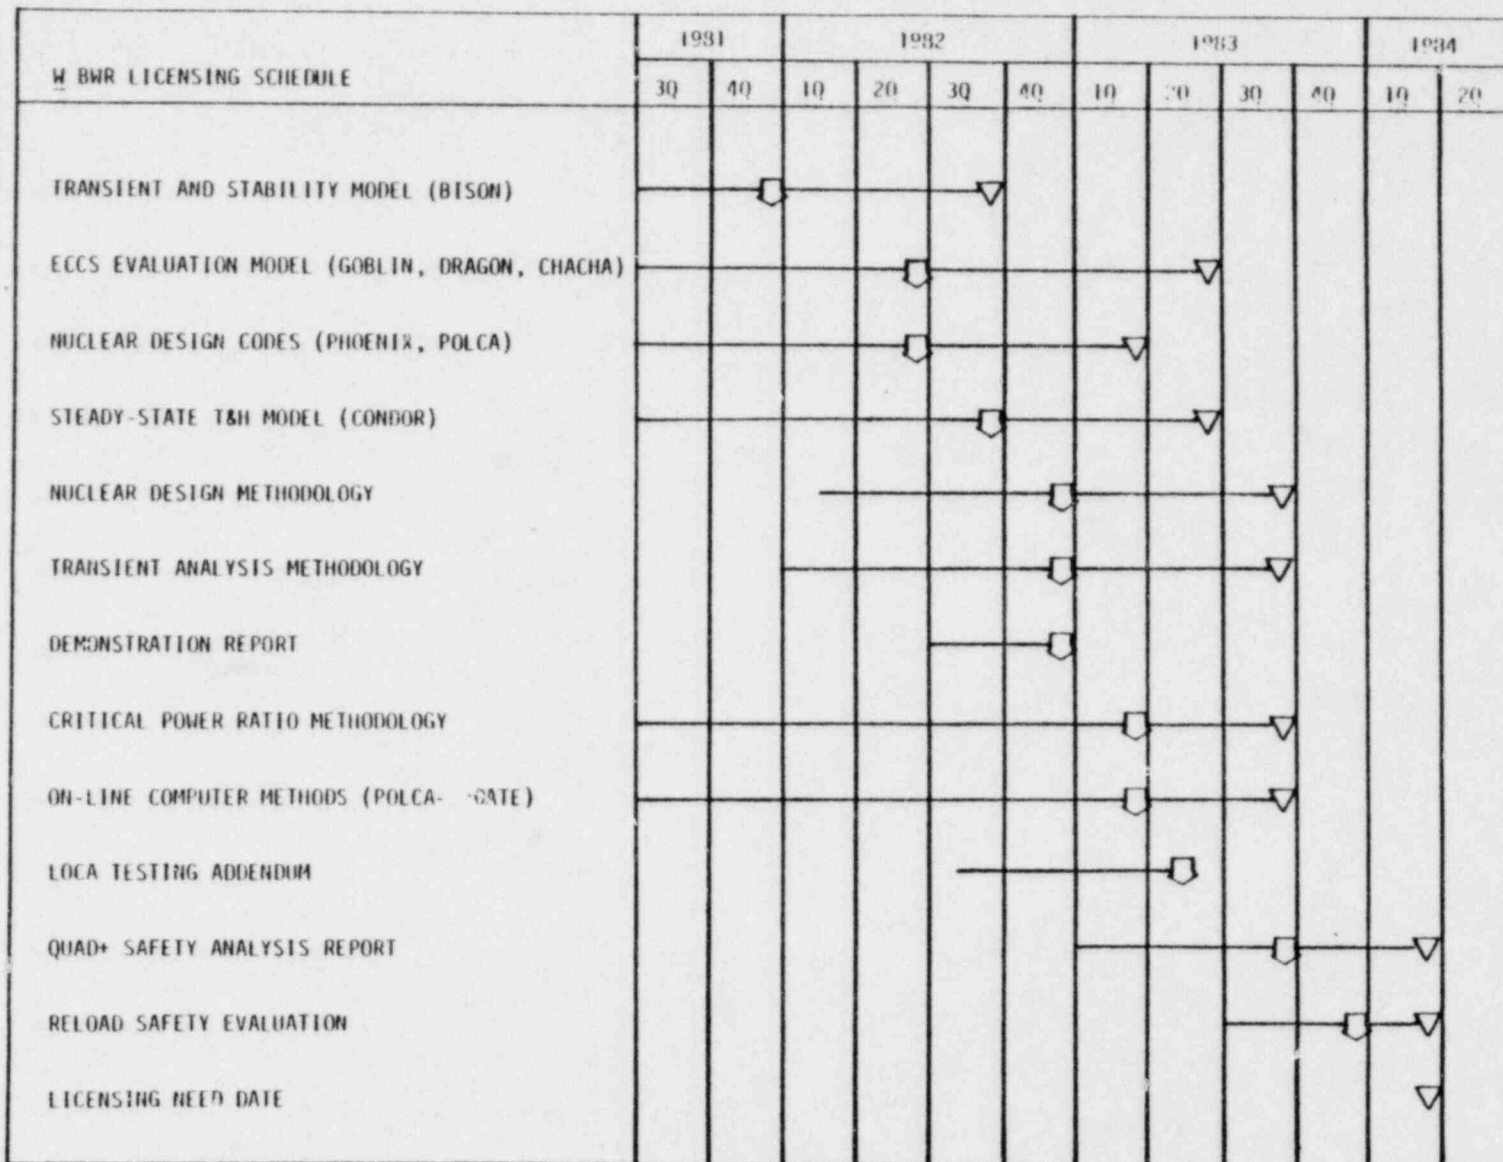

The Agenda and a list of the attendees is also attached.

John S. Berggren, Project Manager
Standardization and Special
Projects Branch
Division of Licensing
