Attn: Mr. Tim Hagen

Dear Sir:

This refers to our telephonic conversation of June 9, 1981. The project work is nearing completion and we hope to deliver the "Tsunami Bibliography" as per schedule. We have, however, noticed many cards having Greek symbols and small equations within a sentence or long complicated equations in the Abstracts Section of cards. Our staff is required to put in more time and we have to expend more computer time for this special need. We wish to bring this to your attention since the samples of cards (xeroxed) supplied in the RFP nor the statement of work indicated above symbols nor the complicated equations. We ~~are~~ therefore, request you to increase the contract price by \$300 to cover this unexpected work.

An early reply to this request will be highly appreciated as we can include the ammended amount in our voucher.

Yours sincerely,

K. Mandlik
