Attachment: BAW-1621, Supplement 1, dated June 1981, document number 77-1126594-00, Effects of Asymmetric LOCA Loadings - Phase II Analysis - Response to NRC questions (10 copies).

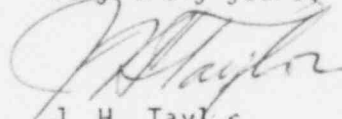

Dear Mr. Eisenhut:

Reference 2 requested responses to questions that arose from the review of the B&W 177FA Owners Group Asymmetric LOCA Loads Report BAW-1621 (submitted by reference 1).

The attached document contains these responses.

This document, in draft form, was previously submitted by reference 3. Since there were no comments on that document, the only change that has been made is to remove the word "draft".

Very truly yours,

J. H. Taylor
Manager, Licensing
