Gentlemen:

This is in response to your letter dated March 16, 1981, which describes the procedures to be used for low enriched uranium scrap being sent to Nuclear Fuel Services, Inc. for processing.

Notwithstanding 10 CFR 70.58(e) which requires measurement of all SNM receipts, the licensee shall follow the procedures described in their letter dated March 16, 1981, for the low enriched uranium scrap (incinerator ash) being sent to Nuclear Fuel Services, Inc. for processing.

We have determined that your letter dated March 16, 1981, contains information of a type specified in 10 CFR 2.790(d).
