MEMORANDUM FOR: Ross A. Scarano, Chief

FROM: Ralph S. Heyer

SUBJECT: PLATEAU RESOURCES LIMITED (PRL), ORE BUYING STATION,
NRC INITIATED AMENDMENT

By letter dated January 2, 1980, PRL notified the NRC as to the status of activities pursuant to Conditions 22, 24 and 26 (construction of an earthen berm around ore storage pad, development of a system for spraying to control dust on the ore receiving pad, and submittal of a reclamation and decommissioning plan, respectively) of Source Material License SUA-1326. Based on this letter the staff planned an NRC-initiated amendment to appropriately modify the respective conditions. Therefore, a casework number was established and a more detailed review was initiated. Subsequently, additional conversations on these matters were held with the licensee after determining that the issues could best be resolved by the licensee sending a normal request for license amendment action along with more detailed supporting information.

PRL formally submitted an appropriate amendment request in a June 25, 1981 meeting in Silver Spring, Maryland. Thus, the NRC-initiated amendment is no longer required and a new casework number for the requested amendment will be established.
