Dr. J. Venn Leeds
James P. Gleason, Chairman

SERVED JUL 16 1981

In the Matter of:
Kansas Gas and Electric
Company, Et Al
(Wolf Creek Generating
Station, Unit 1)

Docket No. STN 50-482 OL

July 15, 1981

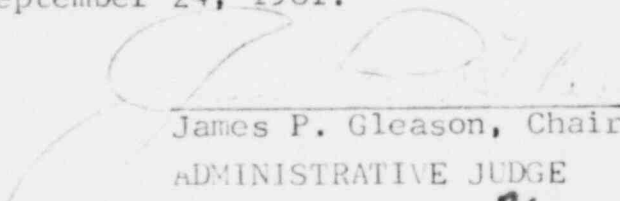

ORDER
(Extension of Time)

By motion of July 2, 1981, the intervenors in this proceeding, Wanda Christy, Mary Ellen Salava and the organization, Kansans for Sensible Energy requested a thirty day extension for filing first round discovery requests and responses. The basis for the request is the additional time required by the Attorney, John M. Simpson to familiarize and prepare himself for discovery proceedings. Mr. Simpson has recently been retained to represent all of the intervenors named above. The Applicant does not object to the extension provided it applies to all parties in the proceeding.

IT IS SO ORDERED: The schedule for first round discovery established by the Board on June 3, 1981 is changed to require first round discovery requests for all parties to be filed by August 19, 1981 and responses by September 24, 1981.

Dated at Bethesda, Maryland
this 15 day of July, 1981.

James P. Gleason, Chairman
