Gentlemen:

Subject: Inspection 30-10191/81-01

This refers to your letter dated July 1, 1981, in response to our letter dated June 10, 1981.

Thank you for informing us of the corrective and preventive actions documented in your letter.

From the telephone conversation between Mr. J. Davis of my staff and Mr. W. Graham of your office on July 7, 1981, it is our understanding that you will make the conversion of pounds of pressure loss on your Radiflo unit to micro-curies per milliliter. If this understanding is incorrect, please notify this office immediately. These actions will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

*John D. Kinneman*
