Attention: Charles E. MacDonald
Chief, Transportation Certification Branch
Division of Fuel Cycle and Material Safety

Dear Mr. MacDonald:

During our last inspection by the State of California, suggestions were made in regard to the improvement of our Quality Assurance Program and that holders of our Q.A. Manual be sent revisions on a routine basis. Enclosed is an updated Q.A. Manual for your files in compliance with this request.

If we can send you additional copies or be of further assistance, please let us know.

Sincerely,

Mary F. Shepherd
