MEMORANDUM FOR: LeRoy S. Person
Operating Facilities Section I
Uranium Recovery Licensing Branch
Division of Waste Management

THRU: John J. Linehan, Section Leader
Operating Facilities Section I
Uranium Recovery Licensing Branch
Division of Waste Management

FROM: Kristin B. Westbrook
Operating Facilities Section I
Uranium Recovery Licensing Branch
Division of Waste Management

SUBJECT: SURFACE AND GROUNDWATER HYDROLOGY REVIEW OF SEMIANNUAL
EFFLUENT (1980-2) REPORT FOR PLATEAU RESOURCES LIMITED(PRL)
HEAP LEACH

This facility is being decommissioned. The site has no water impoundments and no running surface water except for intermittent rain runoff. It was reported that there were no liquid effluent releases. No water monitoring data was presented in the report.

No monitoring of surface water is required under this license. However, there are two water wells that have, according to PRL, been monitored quarterly. The well monitoring is required by license SUA-1013, Condition 10. As part of our review of the decommissioning of this facility, a meeting was held with PRL on June 25, 1981. At this meeting PRL was requested and committed to submitting all groundwater monitoring data collected to date. Based on the above, no further action is necessary at this time.

Original Signed By:
