Subject: Reporting Requirement

Dear Sir:

We have reviewed our current Technical Specification requirement for reporting main coolant activity and feel the existing limits imposed adequately address your needs. However, in consideration of your specific request for an additional reporting requirement, we will commit to the following: for Cycle XV, we will notify the staff of significant changes in coolant activity which may indicate fuel failures.

If you have any questions, please contact us.

Very truly yours,

YANKEE ATOMIC ELECTRIC COMPANY
