ATTN: W. J. Shelley, Director  
Regulation and Control  
Oklahoma City, Oklahoma 73125

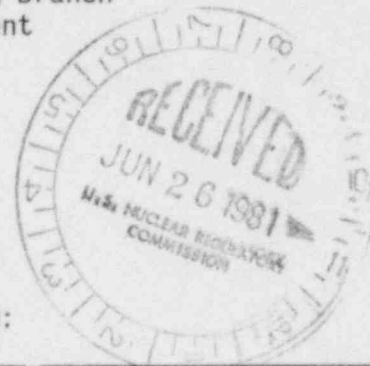

Gentlemen:

This letter is to confirm the June 16, 1981, telephone conversations between your Mr. Shelley and Mr. Frank Anastasi of my staff concerning the future of the proposed South Powder River Basin Uranium Mill. As was discussed, we will expect receipt of the supplement to the Environmental Report for the mill by the agreed upon date of August 18, 1981. It is our understanding that this supplement will adequately address all of the questions raised by the NRC regarding the mill which have not been previously resolved.

Upon receipt of the document, we plan to modify the existing schedule for this project, and will notify you accordingly. We look forward to receiving this additional information, and if you have any questions regarding this matter, feel free to call Frank Anastasi at 427-4393.
