Re: SUA-1358 Docket 40-8681

Dear Mr. Gillen:

This letter is to request that all future correspondence pertaining to the White Mesa Source Material License be directed to my attention. As corporate Licensing Director, it is my responsibility to coordinate all matters pertaining to our License.

It sometimes causes delays and confusion if materials are sent to different persons within our organization. By sending all materials to me, it can be assured that the appropriate parties will be notified, copies will be made and distributed as needed, and that any required responses will be handled promptly.

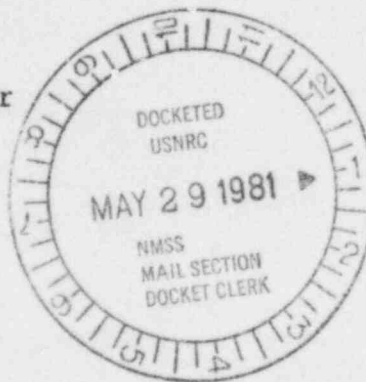

The obvious exception to this request will be when you respond directly to individuals from Energy Fuels who make inquiries or request information. Otherwise, I would appreciate your making the necessary notation in your records to indicate that I will be your primary contact with Energy Fuels.

Sincerely yours,

C. E. Baker,
Licensing & Safety Director
