Dear Mr. Griffin:

Enclosed are six applications for export licenses received recently by NRC. Each license application involves a nuclear export falling within the Executive Branch generic approval of November 21, 1979 for single reloads of low-enriched uranium fuel, but for which a letter of assurance is required that the material will be subject to all of the terms and conditions of an agreement for Co-operation. Your assistance in obtaining the necessary assurance letters on the six license requests will be appreciated.

Sincerely,

James B. Devine, Assistant Director  
Export/Import and International Safeguards  
Office of International Programs
