Dear Mr. Scarano:

Re: Source Material License No. SUA-1199
Docket No. 40-8200

Enclosed are ten copies of the "North Rolling Pin In Situ Uranium Mining Test Groundwater Restoration Report." This document is submitted to demonstrate that the groundwater at the North Rolling Pin site has been adequately restored. Cleveland-Cliffs requests that the report be reviewed at your earliest convenience. After the NRC has concurred that the groundwater has been restored, a site radiation survey will be conducted in order to release the site for unrestricted use and to terminate the Source Material License. //✓

This report is also being submitted to the Land Quality Division, Wyoming Department of Environmental Quality for their review.

Should you have any questions in regard to this report, please contact me personally at your earliest convenience.

Sincerely,

THE CLEVELAND-CLIFFS IRON COMPANY

Truman E. Louderback
