Dear Terry:

Enclosed is the review of the report by Dames and Moore entitled "Detailed Seepage Investigation of Mill Waste Disposal Alternative, West Gas Hills, Wyoming, for Federal American Partners". In the past it has been the practice to write a letter on NRC letterhead explaining the comments in this letter. Please do not send a copy of this letter.

Also enclosed are the figures I had drafted for your report.

Should you have any questions, please call.

Sincerely,

Roy E. Williams
