Gentlemen:

Subject: Inspection 81-01

This refers to your letter dated June 15, 1981, in response to our letter dated June 1, 1981.

Thank you for informing us of the corrective and preventive actions documented in your letter.

From a telephone conversation between Mr. J. Davis of my staff and Mr. J. Dinn on June 25, 1981, it is our understanding that you are modifying your leak test procedure to ensure that it will detect 0.005 microcuries of removable contamination on your sealed source. If this understanding is incorrect, please notify this office immediately. We will review this matter during the next inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

John D. Kinneman
