In the Matter of
INDIANA PUBLIC SERVICE COMPANY
Bailly Generating Station, Nuclear 1
Docket No. 50-367 (Construction Permit Extension)

Dear Mr. Vollen:

This letter is in response to "Porter County Chapter Intervenors' Third Request to the NRC for Production of Documents" (June 9, 1981). Attached are documents responsive to PCCI's Request which a diligent search of our files has revealed. The documents are grouped according to the number of the request to which they are responsive. The memorandum referred to in the May 5, 1981 Jordan memorandum as having been enclosed is the same memorandum which was subsequently signed on May 14, 1981 (the Thompson memorandum) and is attached to PCCI's "Notice of Depositions of Owen Thompson and E. L. Jordan".

We are providing these documents, although we do not consider them relevant to any admitted issue in the "extension" proceeding, in order that the time for discovery be minimized in any proceeding the Commission may direct be held on the short piles pursuant to the D.C. Circuit's decision in People of the State of Illinois v. NRC (No. 80-1163, June 1, 1981).

Sincerely,

Stephen H. Lewis
