Dear Mr. Williams:

Enclosed is a copy of the proposed revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1, Part 3 (Licensing of radioactive material), and Part 7 (Use of radionuclides in the healing arts). The proposed revisions will be made available for public comment on or about January 9, 2020 with a request for comments on or about February 12, 2020. We request NRC’s comments by February 24, 2020. The proposed regulations are identified by strike-out/bold text and correspond to the following equivalent amendments to NRC’s regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
• 2018-1	Medical Use of Byproduct Material - Medical Event Definitions, Training and Experience, and Clarifying Amendments	6 CCR 1007-1, Part 3, Part 7

In addition to the above RATS item, we would also note that the proposed changes to Part 7, Appendix 7A address the comment from NRC correspondence dated June 21, 2012 pertaining to RATS 2009-1.

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

To aid in the review of the proposed draft regulations, we have also enclosed an annotated copy of RATS 2018-1 which identifies each specific section in the proposed rules corresponding to the amended federal rule change.

If you have any questions, please feel free to contact me at 303-692-3371 or James Jarvis of my staff at (303) 692-3454 or james.jarvis@state.co.us.

Sincerely,

Jim Grice, Radiation Program Manager
Hazardous Materials & Waste Management Division
