Memorial Hospital of Laramie County
ATTN: William C. Nichols, Administrator
300 E. 23rd Street
Cheyenne, Wyoming 82201

Gentlemen:

This refers to the routine safety inspection conducted by Mr. Jack E. Whitten of this office on June 30, 1981, of the activities authorized by NRC Byproduct Material License 49-01380-01 and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations, and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements and observations by the inspector.

Mr. Whitten also reviewed the action you had taken with respect to four violations observed during our previous inspection, which was conducted January 18, 1977. He verified that the corrective actions with respect to three of these items were implemented as stated in your replies of February 11 and March 7, 1977, to our letters dated January 28 and February 23, 1977. However, it was observed that one of these violations had recurred during the time period covered by this inspection. This violation is listed as item 2 on the enclosed Notice of Violation.

During this inspection certain of your activities were found not to be conducted in full compliance with NRC requirements. Consequently, you are required to respond to this matter in writing in accordance with the provisions of Section 2.201 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation attached to this letter, and the last paragraph of your letter should include a statement equivalent to the following:
