Technical Inspection Branch

RE: License Number: 15-17729-01  
Docket Number: 30-13281

Dear Mr. Brown:

In response to your Notice of Violation letter dated June 11, 1981, the following are the corrective actions which have been taken, and the results achieved:

- Item #1. All radiographers have been instructed to review 10CFR 20.205, Procedures for Picking Up, Receiving, and Opening Packages. Compliance to these procedures will be followed and monitored very closely when each package is received by Panhandle Radiographers, in order to avoid further violations.
- Item #2. On Friday, May 29, 1981 a phone call was placed to Technical Operations in Burlington, Massachusetts and a copy of Certificate of Compliance, Certificate Number 9033 was requested. This certificate has been received, copies made, distributed, and placed on each portable radiographic unit

Both of these items will be discussed at our Annual Radiographers' Training sessions in the Fall of 1981.

I certify that all information contained in this letter, including any supplements attached thereto, is true and correct to the best of my knowledge and belief.
