Mr. Charles E. MacDonald
Transportation Branch, FCMS Division
Division of Fuel Cycle and Material Safety
Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. MacDonald:

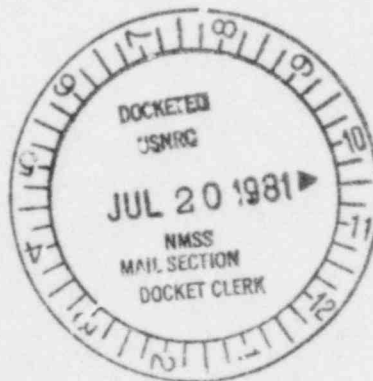

In reviewing our files, I could not find a record of our having notified the Nuclear Regulatory Commission that we acquired a uranium slurry trailer (Tank - S/N OMY781301, Trailer - S/N NBJ-F2-40) from Ranchers Exploration and Development Corporation. This container is certified by Certificate number 9100, revision 1. The model number is KKP-20-4950. The package I.D. number is USA/9100/A. Please register Everest Minerals Corporation as a user of this container.

Sincerely yours,

Wallace M. Mays
