Mr. J. G. Davis, Director
Office of Nuclear Material Safety and Safeguards
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. R. E. Cunningham, Director
Division of Fuel Cycle and Material Safety

Subject: McGuire Nuclear Station -- Unit No. 2
Application for Special Nuclear Material License
Revision No. 1

Dear Mr. Davis:

My letter of May 18, 1981 provided Duke Power Company's application for a Special Nuclear Material License for McGuire Nuclear Station Unit No. 2. Attached is Revision 1 to that application. This revision provides the answers to questions raised by your staff in recent telephone conversations with Duke. The entire application is being re-submitted with the revised sections indicated by lines in the margin.

As stated in my May 18, 1981 letter the shipment of new fuel for Unit No. 2 is now scheduled to begin in mid-August of 1981 and finish in mid-December, 1981. Your prompt review of this application would therefore be greatly appreciated. If you have any questions or comments, please contact Mr. G. A. Copp at (704) 373-4060.

Very truly yours,

William O. Parker Jr.
