## NOTICE OF VIOLATION

Chester Memorial Hospital

License No. 12-14998-01

As a result of the inspection conducted on June 25, 1981, and in accordance with the Interim Enforcement Policy, 45 FR 66754 (October 7, 1980), the following violations were identified:

 License Condition 14 requires that licensed material be possessed and used in ac ordance with statements, representations, and procedures contained in application dated March 29, 1977, and letter dated September 2, 1977.

The letter dated September 2, 1977, states that an annual geometric variation test of the dose calibrator shall be performed.

Contrary to this requirement, an annual geometric variation test of the dose calibrator has not been performed since the date of license issuance.

This is a Severity Level V violation (Supplement VII).

 10 CFR Section 20.401(a) requires in part, each licensee maintain film badge records on Form NRC-5 or a record containing all information required in Form NRC-5.

Contrary to this requirement, film badge records did not show the birthdate of an individual for which film badge monitoring is required.

This is a Severity Level VI violation (Supplement IV).

 10 CFR 35.14(f)(2) requires that the sealed calibration or reference sources be physically inventoried each quarter to account for all the sources received and possessed.

Contrary to this requirement, quarterly inventories of your sealed sources have not been performed since the date of license issuance.

This is a Severity Level VI violation (Supplement VII).

Pursuant to the provisions of 10 CFR 2.201, you are required to submit to this office within thirty days of the date of this Notice a written statement or explanation in reply, including for each item of noncompliance:
