Gentlemen:

This refers to our report issued for the inspection activities performed by our Resident Reactor Inspector, Mr. A. B. Beach, during the period April and May 1981, of activities authorized by the NRC Construction Permit CPPR-145 for River Bend, Unit 1.

The enclosed pages should be substituted in place of paragraph 3 of our report to you dated June 5, 1981. The specific changes involve the potential reportable construction deficiency related to the hydrodynamic forces in the suppression pool referred to on page 4 of that report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

"Original Signed by"
G. L. MADSEN
