Gentlemen:

Thank you for your letter of June 16, 1981, which stated your intention to delete the requirement for inspection of rebar storage by concrete pre-placement inspectors. Your commitment to this requirement was made in your initial response to the Notice of Violation resulting from Inspection 79-03.

Inasmuch as inspection of rebar storage is being accomplished by the storage and maintenance inspection groups, we concur with your intention to delete the redundant requirement that concrete preplacement inspectors also accomplish this inspection.

Sincerely,

Original Signed by:
