Subject: Report Nos. 50-250/81-15 and 50-251/81-15

This refers to the routine safeguards inspection conducted by Mr. D. E. Moore of this office on June 14-18, 1981, of activities authorized by NRC Operating License Nos. DPR-31 and DPR-41 at Turkey Point facility and to the discussions of our findings held with Mr. H. E. Yaeger, Site Manager, at the conclusion of the inspection.

Areas examined during this inspection included your physical security program as implemented under the provisions of Title 10, Code of Federal Regulations, Part 73, "Physical Protection of Plants and Materials", and the specific requirements of license conditions and your approved Security Plan. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, performance tests, and observations by the inspector.

Within the scope of this inspection, no violations or deviations were disclosed.

One new unresolved item resulted from this inspection and is discussed in the enclosed report. This item will be examined during subsequent inspections.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, activities involving safeguards and security measures are exempt from public disclosure; therefore, the enclosed report with the exception of the cover page, which is an inspection summary, will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

A handwritten signature in dark ink, appearing to be "R. C. Lewis".
