License No. 46-17964-01

Washington Public Power Supply System
3000 George Washington Way
P. O. Box 968
Richland, Washington 99352

Attention: J. W. Shannon, Manager
Health, Safety and Security

Gentlemen:

Subject: NRC Inspection

This refers to the routine safety inspection conducted by Messrs. J. Pang and D. Skov of this office on July 8, 1981 of activities authorized by NRC License No. 46-17964-01 and to the discussion of our findings held by Messrs. Pang and Skov with Mr. Graybeal and other members of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observations by the inspectors.

During this inspection, it was found that certain of your activities appeared to be in noncompliance with NRC requirements. The items and references to the pertinent requirements are listed in Appendix A. These items have been categorized into severity levels as described in the Federal Register Notice (45 FR 66754) dated October 7, 1980.

Your response to this notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

If you have any questions on this matter or concerning this inspection, please telephone Mr. Pang on 415-943-3700.

Sincerely,

Original signed by
