Docket Nos. 50-445

(Application for Operating License)

August 4, 1981

ORDER

The Applicants filed answers to CFUR's sixth set of interrogatories and a motion for protective order on July 29, 1981. The motion for protective order concerned those interrogatories to which objections were filed, and this practice properly followed the Board's directive regarding discovery in its Memorandum and Order entered July 23, 1981, at paragraph 3.

However, the Applicants' motion is in the same category as the other pending and unresolved motions between the parties, which we addressed in our Order of July 30, 1981. The instant motion will be considered to be included in Section III of that Order, paragraphs 1-6,

DS02

pages 5-7, and it will be subject to the conference and reporting provisions thereof.

It is so ORDERED.
