Dr. Warren Sinclair, President
National Council on Radiation Protection
Suite 1016
7910 Woodmont Ave.
Washington, D.C. 20014

Dear Dr. Sinclair:

It is now almost a year since you wrote me on January 22, 1980 promising a response to my letter to you of December 23, 1979. I am beginning to wonder if the NCRP is capable as an institution of responding to outside peer review. Could you let me know whether you ever plan to respond?

Sincerely yours,

Frank von Hippel

January 22, 1980

Dr. Frank von Hippel
Princeton University
Center for Energy and Environmental
Studies
The Engineering Quadrangle
Princeton, NJ 08544

Dear Dr. von Hippel:

I have received your letter of December 23 and appreciate your continued interest in the problem you raise concerning exposure of the thyroid to Iodine 131.

We are undertaking a further examination of this problem but as we have to rely upon the voluntary help of otherwise very busy people and my own time is also heavily committed, it may take some time for me to respond adequately to you.

Yours sincerely,

Warren K. Sinclair
President
