

APPENDIX A

NOTICE OF VIOLATION

Metropolitan Edison Company
Three Mile Island Nuclear Station, Units 1 and 2
License Nos. DPR-50
DPR-73

Docket Nos. 50-289
50-320

As a result of the inspection conducted on April 22-May 1, 1981, and in accordance with the Interim Enforcement Policy, 45 FR 66754 (October 7, 1980), the following violation was identified:

Section 4.4.a and Table 3 of the Unit 1 ETS require, in part, that water samples collected at the City of Columbia water intake be analyzed with sufficient sensitivity to meet the minimum analytical sensitivities specified in Table 3.

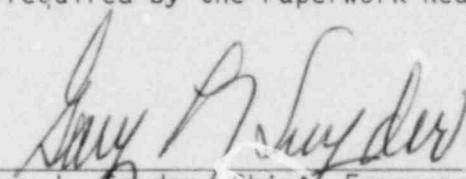

Contrary to these requirements, the water samples collected from the City of Columbia water intake during the fourth quarter of 1979 and the first, second, and third quarters of 1980 were not analyzed with sufficient analytical sensitivity to meet the specified minimum sensitivity for Sr-89.

This is a Severity Level VI Violation (Supplement II)

Pursuant to the provisions of 10 CFR 2.201, Metropolitan Edison Company is hereby required to submit to this office within thirty days of the date of this Notice, a written statement or explanation in reply, including: (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Under the authority of Section 182 of the Atomic Energy Act of 1954, as amended, this response shall be submitted under oath or affirmation. Where good cause is shown, consideration will be given to extending your response time.

The responses directed by this Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Dated JUL 29 1981

Gary L. Snyder, Chief, Emergency
Preparedness and Program Support
Branch
