AND GENERAL MANAGER

Mr. Norman Ketzlach  
Division of Fuel Cycle & Material Safety  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Ketzlach:

As per your request, the additional information needed to complete your review of our application for authorization for receipt, possession, storage, inspection and preparation for transport of special nuclear material required for the operation of the Comanche Peak Steam Electric Station Unit 1 is enclosed as page changes to the original application dated July 10, 1980. This enclosure includes the information previously transmitted by my letter of April 3, 1981 and also the responses to your comments of May 21, 1981. Eight (8) copies of the responses to your comments are enclosed for your evaluation.

Your prompt completion of the application review will be appreciated.

Respectfully,

*R. J. Gary*
