Enclosed for review by the Advisory Committee on Reactor Safeguards are fifteen copies of proposed Revision 3 to Regulatory Guide 1.33, "Quality Assurance Program Requirements (Operation)," dated July 1, 1981, the value/impact statement, and a draft of revision to ANS 3.2, "Administrative Controls and Quality Assurance for the Operational Phase of Nuclear Power Plants," (Draft 8 dated April 1981), which is to be endorsed by the regulatory guide.

This proposed Revision 3 to Regulatory Guide 1.33 and its draft value/impact statement were issued for public comment on November 20, 1980. Enclosed are 15 copies each of the letters of public comments and a summary of their resolution.
