Gentlemen:

This refers to your June 17, 1981 request, for a route approval to be used for shipments of spent fuel from the Quad Cities Nuclear Power Station to the Battelle Hot Laboratory. The approval was issued in response on July 14, 1981.

In accordance with fee Category 13 and Footnote 8 of Section 170.31 of the enclosed Part 170, we have reviewed the manpower expenditures required for review of the subject request, and the actual cost of the review is \$190 (5 man-hours @ \$38/m-hr). We have, therefore, notified the NRC Office of the Controller to issue your Company an invoice for the fee.

If you have any questions concerning this matter, please let us know.

Sincerely,
