

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

August 10, 1981

PDR Copy

MEMORANDUM FOR: William J. Dircks, Executive Director
for Operations

FROM:

for Samuel J. Chilk, Secretary

SUBJECT:

STAFF REQUIREMENTS - BRIEFING ON TMI ACTION PLAN, 2:00 P.M.,
WEDNESDAY, AUGUST 5, 1981, COMMISSIONERS' CONFERENCE ROOM,
D.C. OFFICE (OPEN TO PUBLIC ATTENDANCE)

The Commission was briefed by EDO and IE on the status of implementation items of the TMI Action Plan.

Commissioner Bradford requested a summary report explaining why staff's assessment of the span of time before danger to PWR vessels from pressurized thermal shock events becomes significant has changed from one to two years.
(EDO) (SECY Suspense: 8/19/81)

The Commission requested:

- an additional meeting in the near future on the pressurized thermal shock issue; and
(NRR) (SECY Suspense: To be determined in conjunction with staff)
- a briefing on the status and prioritization of NUREG-0737 developmental items.
(EDO) (SECY Suspense: 30 days)
