August 25, 1981

Mr. Argil Toalston
Acting Chief - Utilities Finance Branch
Division of Engineering
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

KMLNRC 81-107
Re: Docket No. STN 50-482
Subj: Wolf Creek Generating Station-
KMEA Negotiations

Dear Mr. Toalston:

Pursuant to your request for an update on the status of the negotiations with the Kansas Municipal Energy Agency (KMEA) and the Owners of the Wolf Creek Generating Station, Burlington, Kansas, Kansas Gas and Electric Company would advise you that the owners of the Wolf Creek Station are actively negotiating with KMEA for the sale of up to 104 megawatts in the Wolf Creek Generating Station, Unit No. 1. Though no firm commitments have yet been entered into, all parties are actively pursuing agreement upon the value, terms and conditions on which a sale of a portion of Unit No. 1 may be consummated. At the present time it is not anticipated that the sale to KMEA will be concluded in 1981.

Should you have any questions, please feel free to contact me.

Yours very truly,

Glenn L Koester
