OELD

HCanter, Resident Inspector

MEMORANDUM FOR: John Stolz, Chief, Operating Reactors Branch #4, DL

FROM: Mark Padovan, Project Manager, Operating Reactors, Branch #4, DL

SUBJECT: MEETING WITH SACRAMENTO MUNICIPAL UTILITY DISTRICT
(SMUD) - NUREG-0737 SCHEDULES

In the enclosed August 12, 1981 letter, SMUD indicated that they could not meet the NUREG-0737 schedules. Many items due mid 1981 have already slipped to April 1982, and a contractor strike and recent turbine failure have pushed the schedules beyond April 1982.

SMUD has requested to meet with us to discuss their schedule problems. A meeting has been set up for Thursday, September 17, 1981, and you are requested to attend. A tentative agenda for the SMUD presentation is as follows:

I. Identify which NUREG-0737 schedules will not be (were not) met.

III. Discuss the reasons why the schedules will not be (were not) met.

III. Propose new schedules.

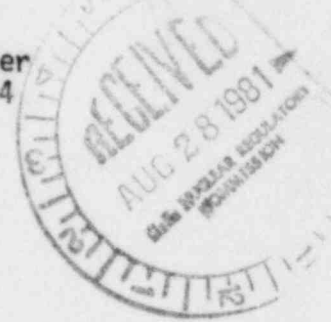

I have requested SMUD to bring documents (contracts, purchase orders, communication memos) to substantiate their position. SMUD's representatives will include Mr. J. J. Mattimore, their Assistant General Manager and Chief Engineer.

If you cannot be available for this meeting, please contact me at X29778. A more formal agenda, including the meeting time and location, will be sent to you before the meeting.
