Docket Nos. 50-445
and 50-446

REPORT OF APPLICANTS AND CASE
REGARDING RESULTS OF DISCOVERY CONFERENCE

On September 9, 1981, representatives of Applicants and Intervenor Citizens Association for Sound Energy (CASE) met to discuss the status of discovery and their differences regarding certain aspects of discovery.

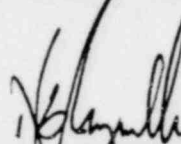

Since the only outstanding discovery motion or order between Applicants and CASE was CASE's 3/17/81 Motion to Compel Applicants regarding CASE's 4th Set of Interrogatories (which Motion the Board granted 7/30/81), much of the conference was devoted to the answers sought in that Motion. Applicants were able to respond to several of CASE's interrogatories in its 4th Set of Interrogatories, thereby clarifying and expanding upon prior responses to those Interrogatories. Applicants agreed to provide written responses to those interrogatories shortly. Applicants also supplied CASE with their response to the NRC Licensing Branch's 7/20/81 letter to TUGCO regarding Prompt Notification in the Event of an Emergency, and agreed to supply CASE shortly with their response to the NRC Licensing Branch's 7/23/81 letter to TUGCO regarding Review Comments on Emergency Plan, in the form of a revision to Applicants' Emergency Plan.

DS03
S
1/1

Applicants and CASE also briefly discussed CASE's other contentions, even though these contentions were not the subject of any outstanding motions. This included discussion of identification of prospective witnesses of both parties so that depositions may be taken. Neither party was able to identify witnesses at this time. However, each agreed that such information would be timely provided to the other when it becomes available.

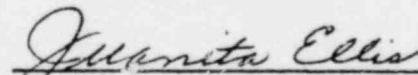

In sum, the September 9 meeting was fruitful in helping both Applicants and CASE to understand their respective positions and concerns and in reaching agreement for Applicants to supply CASE with new information and documents in response to several of CASE's interrogatories.

Respectfully submitted,

Nicholas S. Reynolds
