

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

PAGE 2 OF 2 50-275,323

September 17, 1981

The Honorable Robert Lagomarsino
United States House of Representatives
Washington, D.C. 20515

Dear Congressman Lagomarsino:

This is to acknowledge receipt of your telegram dated September 10, 1981 concerning Diablo Canyon. Your telegram has been distributed to all of the Commissioners.

As you know, the Commission has already had a number of briefings on the contested and uncontested issues in the Diablo Canyon proceeding in preparation for its decision on whether or not to grant effectiveness to the decision of the Licensing Board that a low-power license may be issued for the Diablo Canyon nuclear power plant.

The Commission has scheduled a further briefing and discussion in closed session for the afternoon of Friday, September 18, 1981. It has scheduled another meeting for 2:00 p.m., Monday, September 21, 1981 for a possible vote on the low-power license.

We will continue to keep your office informed of Commission actions with respect to the licensing of the Diablo Canyon facility.

Sincerely

Carlton Kammerer, Director
Office of Congressional Affairs
