RE: WM. H. ZIMMER NUCLEAR POWER STATION - UNIT 1
NRC IE BULLETIN 81-02, SUPPLEMENT 1
W.O. 57300, JOB E-5590

Gentlemen:

By our letter of July 7, 1981, we confirmed that no safety-related gate valves were furnished to the Zimmer Project by Westinghouse - EMD. Since Supplement 1 of IEB 81-02 still basically applies to Westinghouse motor operated gate valves, our prior response is also applicable to Supplement 1.

Again, since none of the affected valves were furnished to the Zimmer Project, we plan to take no further action relative to IE Bulletin 81-02.

Very truly yours,
The Cincinnati Gas & Electric Co.

E. A. Borgmann
