Gentlemen:

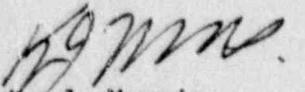

SUBJECT: Application for Amendment of Operating License

Enclosed please find Omaha Public Power District's (OPPD) "Application for Amendment of Operating License" which seeks to amend the Fort Calhoun Station Unit No. 1 Technical Specifications. The changes requested pertain to the Limiting Conditions for Operation for the Chemical and Volume Control System, and are consistent with previous submittals from Florida Power and Light's St. Lucie plant and Southern California Edison's San Onofre plant.

Attachment A contains a markup reflecting the requested changes of the Technical Specifications. Attachment B provides a Discussion, Justification, and No Significant Hazards Consideration Analysis, to include Reference 2 which was used as a technical basis, for the changes requested.

If you have additional questions, or require further information, please do not hesitate to contact me or members of my staff.

Sincerely,

  
K. J. Morris  
Division Manager  
Nuclear Operations
