TO: Sited States Representatives

SUBJECT: GOVERNORS' CERTIFICATIONS

This is in response to your letter of December 12, 1989, on the subject.

As you noted, California's certification calls for an annual evaluation of progress. We will include in that evaluation a review of waste generators' progress regarding mixed waste management and will make reports available to the sited states. By copy of this letter I am asking the states of Arizona, North Dakota, and South Dakota to take the same action.
