Status of Implementation of Unresolved Safety Issues, Response to
Generic Letter 89-21

REFERENCE: (a) Letter from Mr. G. C. Creel (BG&E) to Document Control Desk
(NRC), dated November 27, 1989, same subject

Gentlemen:

Reference (a) reported the status of implementation of the Unresolved Safety Issues (USI) given in Generic Letter 89-21. The status of USI A-11 was inadvertently incorrectly reported as "NC, CCNPP Charpy upper shelf energy is less than 50 foot pounds." The status of USI A-11 should read "NC, CCNPP Charpy upper shelf energy is not less than 50 foot pounds."

We regret the inconvenience this caused you.

Should you have any further questions regarding this matter, we will be pleased to discuss them with you.

Very truly yours,

GCC/DLS/db
