Gentlemen:

This refers to your application dated December 12, 1989, requesting an amendment to Certificate of Compliance No. 5971 for the Model No. IPO-200 cask.

In connection with our review we need the information identified in the enclosure to this letter. The information should be provided as replacement pages to the application.

Please advise us within 30 days from the date of this letter when this information will be provided. If you have any questions regarding this matter, we would be pleased to meet with you and your staff.

Sincerely,

Original Signed by
CHARLES E. MACDONALD

Charles E. MacDonald, Chief

Encl. to ltr. dtd. FEB 05 1990

1. Since the threaded insert shown on detail B is specified to be "optional," the drawing should be revised to clearly show the details of both options (i.e., with and without insert). The detail drawing of the insert option should clearly show how the one-inch deep insert will be fitted in the 1-1/8 inch deep bolt hole.
2. Provide additional information, or manufacturer's data, which describes the materials, dimensions, use and rating of the insert. The drawing should be revised to delete the words "or equivalent."
3. Provide calculations which show explicitly that the insert can develop the full tensile strength of the closure bolt. Revise the drawings to specify the material of the closure bolt and the torque to be applied to the closure bolt.
