

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

October 25, 1989

MEMORANDUM FOR: Dennis M. Crutchfield, Associate Director
for Special Projects
Office of Nuclear Reactor Regulation

FROM: Rosemary T. Hogan
Emergency Preparedness Branch
Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation

SUBJECT: NRC STAFF DIFFERING PROFESSIONAL OPINION ON
COMANCHE PEAK

I have reviewed relevant portions of the initial report of the SALP for Comanche Peak. My review was limited to the emergency preparedness area, therefore, I reviewed the draft transmittal letter, the Introduction, the Summary of Results, and the Emergency Preparedness section of the Performance Analysis. I participated in both inspections conducted in the Emergency Preparedness area during this assessment period and I have first hand knowledge of the results of those inspections. I agree with the assessment, the Performance Rating and the Board Recommendations.
