Gentlemen:

**ARTIFICIAL ISLAND SECURITY PLAN, SECURITY CONTINGENCY PLAN  
AND TRAINING AND QUALIFICATION PLAN SUBMITTAL  
SALEM AND HOPE CREEK GENERATING STATIONS  
DOCKET NOS. 50-272, 311 & 354**

Public Service Electric and Gas Company (PSE&G) hereby provides five (5) copies of revisions to the above referenced documents in accordance with 10 CFR 50.54 (p). The Artificial Island Security Plan, Revision 1, the Artificial Island Security Contingency Plan, Revision 2, and the Artificial Island Security Training and Qualification Plan, Revision 1, are provided as Enclosures 1, 2 and 3, respectively. Each enclosure includes a summary sheet which explains the changes that have been made.

Completion of the project to remove the Salem switchyard from the Protected Area has been delayed for reasons unrelated to the security portion of the project. As such, the Security Plan drawing depicting the final plant configuration can not be provided at this time but will be forwarded under separate cover upon completion of the project. This has been previously discussed with Mr. Richard Kiemig of the Region I staff.

The enclosures to this letter contain SAFEGUARDS INFORMATION which must be protected from public disclosure in accordance with 10 CFR 73.21.

Should you have any questions with regard to this submittal, or desire to meet to discuss the changes during your review process, please do not hesitate to contact Mr. Daniel W. Renwick, Nuclear Security Manager, at 609/339-2244.

Sincerely,

Enclosures (3)
