Attention: Mrs. Betty L. Wright
Licensing Officer
Mail Station 3-H-5

Reference: NRC Export License No. SCOM1030
For The Halden Reactor Project,
Halden, Norway

Dear Mrs. Wright:

As a confirmation to our telecon of this morning, we are requesting an Amendment #1 to the referenced export license now showing fourteen (14) pieces for an exported value of \$36,000.00.

The amendment should show a new quantity of sixteen (16) pieces for a new export value of \$41,000.00. This new quantity is the direct result of our obtaining a better yield than originally anticipated. We would appreciate anything you could do to expedite the amendment.

At this time, the tubes are ready to ship pending our receipt of the amendment.

As per your instructions, we are mailing the original export license to your attention in this evening's mail.

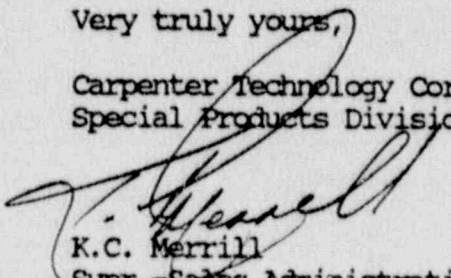

RECEIVED
U.S.N.R.C.
