Docket No. 50-312
Rancho Seco Nuclear Station
License No. DPR-54

REGULATORY GUIDE 1.16 ANNUAL EXPOSURE REPORT

Attention: REIRS Project Manager

In accordance with Rancho Seco Permanently Defueled Technical Specification D6.9.2.2 and the guidance contained in NRC Regulatory Guide 1.16, the District submits the attached 1992 Annual Exposure Report. Since less than 80% of the total dose is accounted for in personnel exposed to greater than 100 mrem during 1992, the District provides a second table in the attachment which shows the number of personnel exposed to greater than or equal to zero mrem.

Members of your staff requiring additional information or clarification may contact Bruce Rogers at (916) 452-3211, extension 4853 or 4889.

Sincerely,

James R. Shetler
Deputy Assistant General Manager
