MAY 02 1983

Docket No. 50-312

Sacramento Municipal Utility District
ATTN: Mr. R. J. Rodriguez
Executive Director, Nuclear
6201 S Street
Box 15830
Sacramento, California 95813

Gentlemen:

We have received a copy of the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review in connection with the Rancho Seco Nuclear Generating Station:

1. A January 6, 1983 request regarding modifications for storing the reactor cavity annular seal plate during reactor operations.

2. A February 13, 1983 request for Technical Specification changes relating to decreasing the allowable diesel outages.

3. A March 28, 1983 request for evaluation of air filtration charcoal disposal methods.

4. A March 31, 1983 request for exemption from Order confirming commitment to implement post-TMI related items set forth in NUREG-0737.

Fees pursuant to 10 CFR 170.22 were not remitted with these applications.

Based on information provided by the ONRR staff as the result of their preliminary reviews of your requests, it has been determined that a Class III fee ($4,000) is appropriate for each of the four requests since the reviews will involve consideration of a single safety issue. Therefore, you are requested to remit the sum of $16,000 to this office. If the ONRR staff's final reviews of your applications reveal that these fees are not appropriate, you will be notified and any necessary adjustments will be made.

DATE ➤							

MAY 02 1983

For your information, the March 31, 1983 request (item 4 above) is not exempt from fees under the provision of Footnote 2 to 10 CFR 170.22 in that the basic requirements were set forth in earlier letters and NUREG-0737; the Order of March 14, 1983, served to confirm your commitments to implement the post-TMI related items. In addition, extension of time to comply with an order requirement is not exempt from fees.

Sincerely,

Signed, C. James McHoway, Jr.

William O. Miller, Chief
License Fee Management Branch
