NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING APPEAL BOARD

In the Matter of )  
METROPOLITAN EDISON COMPANY, ET AL. ) Docket No. 50-289  
(Three Mile Island Nuclear Station, ) (Restart)  
Unit No. 1) )

AFFIDAVIT OF Frederick R. Allenspach

I, Frederick R. Allenspach, being duly sworn, depose and state:

I am a Nuclear Engineer (Management Systems) in the Nuclear Regulatory Commission Staff's Licensee Qualifications Branch, Division of Human Factors Safety.

I served as a staff witness in support of the organization and management portions of the staff's safety evaluation report regarding TMI-1 Restart, NUREG-0680, Supplements 1 and 2. I also co-sponsored testimony with Lawrence P. Crocker for the Three Mile Island Unit 1 Restart Hearing relating to Contention AAMODT #2, which related to upgrading the performance of licensee technicians and management personnel. I have read the TMI Management Audit dated February 14, 1978. This audit report does not affect the testimony I prepared relating to Contention AAMODT #2 or in my testimony as a witness at the TMI-1 Restart Hearing because this audit report deals with the organization and management in effect prior to the TMI-2 accident, while my testimony deals with the revised organization and management for TMI-1 placed in effect following the accident.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on May 4, 1983.
